DETAILED ACTION

Drawings

1. The drawings were received on 04/15/04. These drawings are accepted by the Examiner.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

With respect to claims 1 and 3, the prior art fails to disclose, in combination with all the limitations, the specific arrangement disclosed for the regulator, such as the deviation detection means-plus-function shown in figure 1 and describe in part in paragraph 0065 of the specification; the integral-value calculation means-plus-function shown in figure 2 and describe in part in paragraph 0067; the pulse signal calculation means-plus-function shown in figure 2 and describe in part in paragraph 0069. Also, stating a time reference (before) when the voltage is to be established and being lower than a first voltage threshold and replacing the voltage with a second threshold voltage not less than the first threshold value and to finally disclosed that when the voltage is not lower than a first threshold value then the voltage is to be replaced by another reference voltage makes the claims allowable over the Prior Art.

With respect to claim 2, the prior art fails to disclose, in combination with all the limitations, the specific arrangement disclosed for the regulator, such as the deviation detection means-plus-function shown in figure 1 and describe in part in paragraph 0065 of the specification; the integral-value calculation means-plus-function shown in figure 2 and describe in part in paragraph 0067; the pulse signal calculation means-plus-function shown in figure 2 and describe in part in paragraph 0069. Also, stating a time reference (after) when a voltage is to be established and judging that the generator is in a load short circuit condition, which leads to maintaining a fixed pulse width and making the integral value of the deviation zero and to finally replaced a reference voltage with a third threshold voltage, which is not less than a detected voltage and a set voltage makes the claim allowable over the Prior Art.

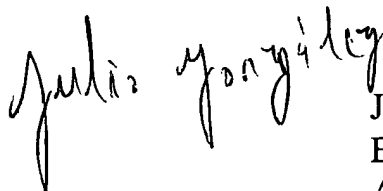

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
